

The background of the entire page is a photograph of a still life arrangement. In the upper right, a cluster of white daffodils with yellow centers is in bloom, emerging from a tall, slender, light-brown ceramic vase. The vase has a subtle, pebbled texture. In the foreground, on a light-colored wooden surface, there are stacks of ceramic dishes. To the left, a stack of light-brown plates is topped with a single blue bowl. To the right, another stack of light-brown plates is partially visible, with a light-brown bowl resting on top. The background wall is covered in light blue hexagonal tiles with dark grey grout. The overall lighting is soft and natural, creating a warm and inviting atmosphere.

# Heath Dinnerware & Home Catalog

Issued April 2019

For over 60 years, we've been designing, making, and selling thoughtful products that embody creativity and craftsmanship, elevate the everyday, and enhance the way people eat, live, and connect.

## Our Dinnerware Lines

We believe in simple, functional, and thoughtfully designed tableware. Our iconic and enduring pieces are still made by a team of craftspeople at our original Sausalito, California factory, as they have been since 1948 when Edith Heath designed the classic Coupe Line.

We start with our original brown and white clay bodies, then form, glaze, trim, and fire each plate, bowl, mug, and serving piece as we always have. We create durable, quality pieces for the table, meant to be enjoyed every day. Or as we like to think about it: simple, good things for good people.

We design dinnerware lines, shapes, and glaze colors to go together, to be timeless and enduring, and to work as sets or mixed with a collection over time. Our latest offerings — refreshed glazes in our Coupe Line — are no exception. We take pride in the idea that our pieces interact so seamlessly that it's often hard to tell what's old, and what's new.

Coupe

Rim

Plaza & Accessories

We have five dinnerware lines and a complementary accessories line, all in a range of glazes and glaze combinations. You can assemble a complete place setting within a specific line; we also encourage you to mix and match across collections and different glaze colors.

Heath doesn't just go well with other Heathware, it also works well with Heath and non-Heath vintage treasures, flea market finds, and a wide range of table settings.

Alabama Chanin

Chez Pannissee

# Coupe Line

This original, classic design is perhaps the most ideal example of modernism's honesty in materials. At once timeless and relevant, it stands out for its clean, simple lines. Introduced in the late 1940s, and refreshed in 2018 with an updated glaze palette on the same classic shapes.

## Heath Designs

While we're best known for our dinnerware and tabletop accessories, we also create, gather, and offer beautiful, responsibly crafted goods for the entire home that won't be found everywhere else.

From Heath Tile to furniture, tabletop textiles, cushions, throws, rugs, and wallpaper, we sell goods for homes and spaces with character. We work with partners, makers, and small independent companies that share our values and our appreciation of craftsmanship, timeless design, and quality that endures.

### Heath Tile

Beloved of architects, designers and homeowners alike, Heath Tile — made in Heath's San Francisco tile factory — is a pure expression of our love of beautiful materials. Our perfectly imperfect tiles are made by real people, glazed using traditional techniques, and fired and finished by Heath every step of the way. The iconic aesthetic, distinctive shapes, and broad palette allows for truly unique, varied and individual installations ranging from home environments to large-scale public spaces.

### Furniture

We bring together hard-to-find pieces from a variety of small, independent designers and makers. These include Nomad from Jacob May, a line of tables made in Oakland, California, exclusively for Heath; furniture from Garza Marfa; and pieces made by artists and artisans we work with on an ongoing basis.

### Rugs

Our handcrafted but hard-wearing felt and flat weave rugs from noteworthy makers, such as Armadillo&Co, work with our colorful yet muted palette, pulling together rooms and a wide range of home decor styles.

### One-of-a-Kind Finds

Heath supports a variety of artists and makers working at the intersection of craft and design whose limited edition works bring life and character to any space. These include lighting, sculptures, clocks, and vessels from the Heath Clay Studio, lanterns and large-scale pots from Stan Bitters, ceramics from Akio Nukaga, sculptures from Brendan Monroe, and more.

# Candleholder Complements

We offer a variety of accessories to extend the design and functionality of our candleholders. Our Modern Hurricane options — consisting of two styles, Float and Stack — bring a sculptural element to the candleholders (particularly when grouped in varying heights), our wooden candleholder tray adds portability and presence.

**Shapes & Pricing\***

# Nomad Furniture

The Nomad Collection by Jacob May, exclusive to Heath, is an elegant, streamlined 14-piece collection, made out of domestically sourced hardwoods in Oakland, California. It features collapsible dining tables, side tables, coffee tables, and benches that are equally at home in a range of interiors from minimalist modern urban retreats to bohemian beach homes.

**Shapes, Sizes, & Pricing\*\***

## Tableware Policies

### Ordering Guidelines

Many of our items are in stock and ready to go home with you. Occasionally, because of the handcrafted nature of our products, we may need time to make the clay, form the piece, fire and glaze it, and then get the finished pieces on their way to you.

### Variation

All of our items are inspected by hand, as we take great care in the satisfaction of our customers and quality of our products. Irregularities and variation in glaze color are inherent due to the handcrafted nature of our pieces. We feel that these characteristics add to the natural beauty and unique quality of our products and are in no way to be considered flaws.

### Quality + Care

Our dinnerware is microwave, oven and dishwasher safe if used properly. It should not, however, be placed over direct heat, heated to over 400°, or shocked from one extreme (hot/cold) temperature to another. To remove marks left by silverware, we suggest using Bar Keepers Friend — available for purchase in stores and online, and in most major hardware stores.

### Shipping

Orders are shipped UPS Ground. We do not ship to PO boxes due to UPS shipping restrictions. For expedited order requests, please contact our Customer Service team for details and rates. We'll do our best to accommodate, depending on our inventory.

### Damage or Breakage

We warranty our products for up to one year from purchase for proven defects in manufacture. Any breakage upon shipping must be reported to our Customer Service team within five days. We will re-ship your product once UPS has obtained possession of the package and the products are available for shipment.

### Exchanges

We are happy to exchange items within 30 days of purchase for store credit or exchange. We cannot offer refunds. Please ensure items show no signs of use. All exchanges must be accompanied with a receipt or original packing slip and an Exchange Authorization Form, available online or through Customer Service. Exchanges without proof of payment will be processed at factory seconds pricing. All furniture sales are final. Heath is not responsible for any damage that occurs when return shipping, so we strongly encourage you to pack the items well and ship via FedEx or UPS. Please note shipping costs are non-refundable.

### To the Trade

Trade discounts are available if you are a restaurant, hotel, designer, architect, or other industry specifier. All Trade customers must set up an account with a Heath representative by providing a resale license or tax ID number. Minimum order is \$500 (COGs only).
